

PICCOLO GRAND HOTEL

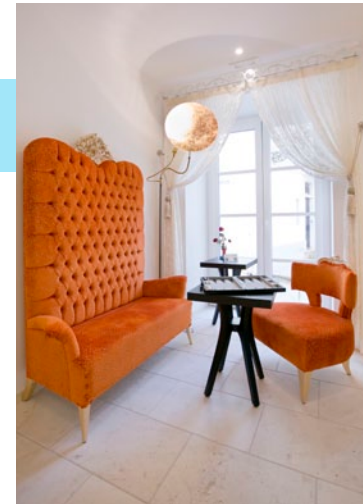

Welcome to your vacation

Situated in the historical centre of Pizzo (Calabria), a lively town in an echanting location on a cliff by the sea, you can find the small but nice and trendy luxury "Piccolo Grand Hotel".

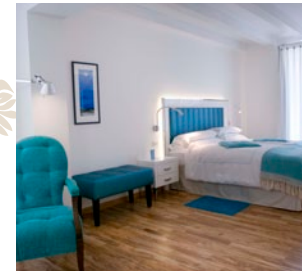

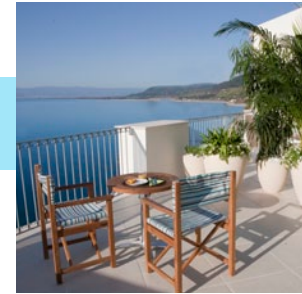

So far away, yet so close ...

17 individually designed rooms and suites, 3 of them in the nearby branch building with a breathtaking view from the cliffside onto the Mediterranean. Internet service for free, large flat screen TVs, a safe and telephone are at the guests' disposal, in a forward-looking hotel with exemplary energy-saving technology.

"Dolce vita" for everybody

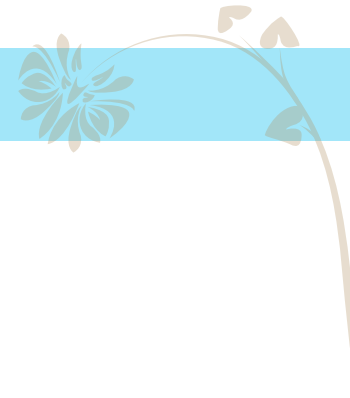

Who wouldn't want to walk to the "Pizzo beaches"? The hotel-owned "electro shuttle" will take you there, as well as to the beaches, to the marina of Pizzo, the railway station, or to the car park. Environmental thinking is important for us, which is why we offer you a Fiat Panda to rent as well as two "pedelecs" (bicycles with support motor). Ask for more information at the front desk.

*Great view
and activities*

Enjoy the comforts and the culinary variety of the region and take part in the local joie de vivre. The Hotel also organizes excursions to the Aeolian Islands or other nearby cultural sights.

Culture and delicacies

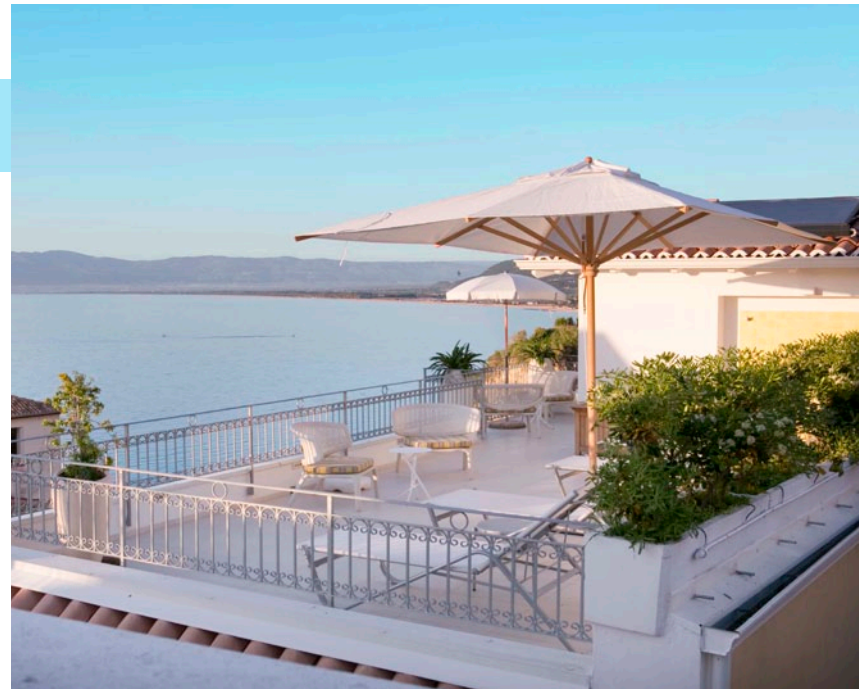

Service

Since 2015, we've been offering a small fitness area free to use for hotel guests, as well as massage services on request at special rates. We also offer a multi-functional room for at least 20 persons for your private events.

Of course guests will be picked up from the nearby airport Lamezia Terme (approx. 20 km) for a small fee. We will organize your arrival and departure. Please call us, we'll take care of everything ...

See you again
